STATEMENT OF WORK

1. PROJECT TITLE

Development of a new method for the measurement of the cross-section of the reaction  $p + p \rightarrow p + p + \pi^0$  at low energies.

The purpose of this project is to develop a new method for the measurement of the cross-section of the reaction  $p + p \rightarrow p + p + \pi^0$  at low energies. The method will be based on the use of a new type of detector, which will be able to measure the energy of the particles produced in the reaction.

The method will be based on the use of a new type of detector, which will be able to measure the energy of the particles produced in the reaction. The detector will be a silicon detector, which will be able to measure the energy of the particles produced in the reaction.
